Third Quarter 2024

Important information

FIBRA
Macquarie
México

This document has been prepared by Macquarie Asset Management México, S.A. de C.V. ("MAM Mexico"), as manager, acting in the name and on behalf of CIBanco, S.A., Institución de Banca Múltiple ("CIBanco"), as trustee, of FIBRA Macquarie México ("FIBRA Macquarie").

As used herein, the name "Macquarie" or "Macquarie Group" refers to Macquarie Group Limited and its worldwide subsidiaries, affiliates and the funds that they manage. Unless otherwise noted, references to "we" "us", "our" and similar expressions are to MAM Mexico, as manager, acting in the name and on behalf of CIBanco, as trustee, of FIBRA Macquarie.

This document does not constitute an offer to sell or a solicitation of an offer to buy any securities in the United States, and securities may not be offered or sold in the United States absent registration or an exemption from registration under the U.S. Securities Act of 1933, as amended. This document is an outline of matters for discussion only and no representations or warranties are given or implied. This document does not contain all the information necessary to fully evaluate any transaction or investment, and you should not rely on the contents of this document. Any investment decision should be made based solely upon appropriate due diligence and, if applicable, upon receipt and careful review of any offering memorandum or prospectus.

This document includes forward-looking statements that represent our opinions, expectations, beliefs, intentions, estimates or strategies regarding the future, which may not be realized. These statements may be identified by the use of words like "anticipate," "believe," "estimate," "expect," "intend," "may," "plan," "will," "should," "seek," and similar expressions. The forward-looking statements reflect our views and assumptions with respect to future events as of the date of this document and are subject to risks and uncertainties.

Actual and future results and trends could differ materially from those described by such statements due to various factors, including those beyond our ability to control or predict. Given these uncertainties, you should not place undue reliance on the forward-looking statements. We do not undertake any obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

No risk control mitigant is failsafe. Notwithstanding the mitigants described herein, losses may occur as a result of identified or unidentified risks. Past performance is no indication of future performance.

Certain information in this document identified by footnotes has been obtained from sources that we consider to be reliable and is based on present circumstances, market conditions and beliefs. We have not independently verified this information and cannot assure you that it is accurate or complete. The information in this document is presented as of its date. It does not reflect any facts, events or circumstances that may have arisen after that date. We do not undertake any obligation to update this document or correct any inaccuracies or omissions in it. Any financial projections have been prepared and set out for illustrative purposes only and do not in any manner constitute a forecast. They may be affected by future changes in economic and other circumstances and you should not place undue reliance on any such projections.

Recipients of this document should neither treat nor rely on the contents of this document as advice relating to legal, taxation or investment matters and are advised to consult their own professional advisers.

No member of the Macquarie Group accepts any liability whatsoever for a direct, indirect, consequential or other loss arising from any use of this document and/or further communication in relation to this document.

Any discussion in this document of past or proposed investment opportunities should not be relied upon as any indication of future deal flow.

The growth opportunities described herein are not necessarily reflective of all potential investments, which may have significantly different prospects and other terms and conditions. No assurance can be given that any such growth opportunities will be pursued by FIBRA Macquarie.

Qualitative statements regarding political, regulatory, market and economic environments and opportunities are based on our opinion,

belief and judgment. Such statements do not reflect or constitute legal advice or conclusions. Investment highlights reflect our subjective judgment of the primary features that may make investment in the relevant sector attractive. They do not represent an exclusive list of features, and are inherently based on our opinion and belief based on its own analysis of selected market and economic data and its experience in Mexico.

This document is not for release in any member state of the European Economic Area.

Unless otherwise stated all information presented here in is as of September 30, 2024.

Other than Macquarie Bank Limited ABN 46 008 583 542 ("Macquarie Bank"), any Macquarie Group entity noted in this document is not an authorized deposit-taking institution for the purposes of the Banking Act 1959 (Commonwealth of Australia). The obligations of these other Macquarie Group entities do not represent deposits or other liabilities of Macquarie Bank. Macquarie Bank does not guarantee or otherwise provide assurance in respect of the obligations of these other Macquarie Group entities. In addition, if this document relates to an investment, (a) the investor is subject to investment risk including possible delays in repayment and loss of income and principal invested and (b) none of Macquarie Bank or any other Macquarie Group entity guarantees any particular rate of return on or the performance of the investment, nor do they guarantee repayment of capital in respect of the investment.

FIBRA Macquarie at a Glance

As at September 30, 2024

FIBRA
Macquarie
México

Strategic focus

- FIBRA Macquarie focuses on the acquisition, development, ownership and management of industrial and retail real estate properties in Mexico
- Industrial properties administered by our internal property administration platform focused on providing high-quality customer service to current tenants and attracting new tenants
- Retail properties that provide a range of basic services and are located in high density urban areas, primarily in the Mexico City Metropolitan Area

Portfolio breakdown¹⁰

NOI by currency

NOI by sector

Financial summary

Metric	Amount
Market capitalization EOP ³	US\$1.3bn / Ps. 25.1bn
Total assets (proportionately combined) ³	US\$3.3bn / Ps. 65.3bn
Regulatory LTV ratio / Real Estate Net LTV ⁴	30.7% / 33.0%
NOI (LTM) ⁵	US\$224.1m / Ps. 4.0bn
Implied NOI cap rate (market cap-based) ⁶	10.1%
AFFO per certificate ⁷ / Scheduled distribution per certificate (3Q24)	Ps. 0.6613 / Ps. 0.5250
AFFO per certificate (LTM) ⁷ / Scheduled distributions per certificate (LTM)	Ps. 2.5370 / Ps. 2.1000
AFFO Yield / Distribution yield (LTM) ⁸	8.1% / 6.7%
ADTV (90-day) ⁹	US\$2.0m / Ps. 36.7m

Portfolio summary

Type	# of properties	# of tenants ¹	Occupancy	GLA ('000s sqm)	GLA ('000s sqft)
Industrial	241	281	97.2%	2,915	31,382
Retail ²	17	715	93.0%	430	4,627
Total	258	996	96.6%	3,345	36,009

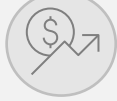

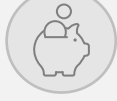

1. The number of tenants is calculated on a per property basis. 2. Includes 100% of the property information with respect to each of the nine retail properties held through a 50/50 joint venture. 3. FX: Sep 30, 2024: Ps. 19.6290, certificate price Ps. 31.48, Outstanding CBFIs: 797,311,397. 4. Regulatory LTV calculated as (total debt + interest payable) / total assets, Net Real Estate LTV calculated as proportionally combined (debt + tenant security deposits - cash - deferred sales proceeds) / (fair market valued property values + land reserves + work in progress). 5. FX: Average rate - LTM: 17.6779 as of September 30, 2024. 6. Calculated as NOI LTM / Implied Operating RE Value; Implied Operating RE Value is calculated as market capitalization + proportionately combined (debt - cash - land reserves), at the end of the quarter. 7. Calculated using weighted average outstanding CBFIs for the respective period. 8. Calculated using EOP market cap and LTM AFFO and scheduled distributions. 9. ADTV uses the average FX rate for the 90 trading days up to September 30, 2024 of Ps. 18.9151. 10. Calculated using NOI LTM as of September 30, 2024, and LTM FX rate of Ps. 17.6779.

Executive Summary

3Q24 Key Metrics

1. All results presented on economically proportionately combined basis. 2. For further details of the calculation methodology see the definition section in the Appendix. 3. Based on weighted average certificates outstanding during the respective period, 3Q24: 797,311,397 and 3Q23: 761,288,719. Margins are calculated as a % of total revenues. 5. All amounts are expressed in Ps. millions or US\$ millions except for per certificate margins and metrics. 6. FX average rates: 3Q24: 18.9151; 3Q23: 17.0582.

3Q24 Key Portfolio Metrics

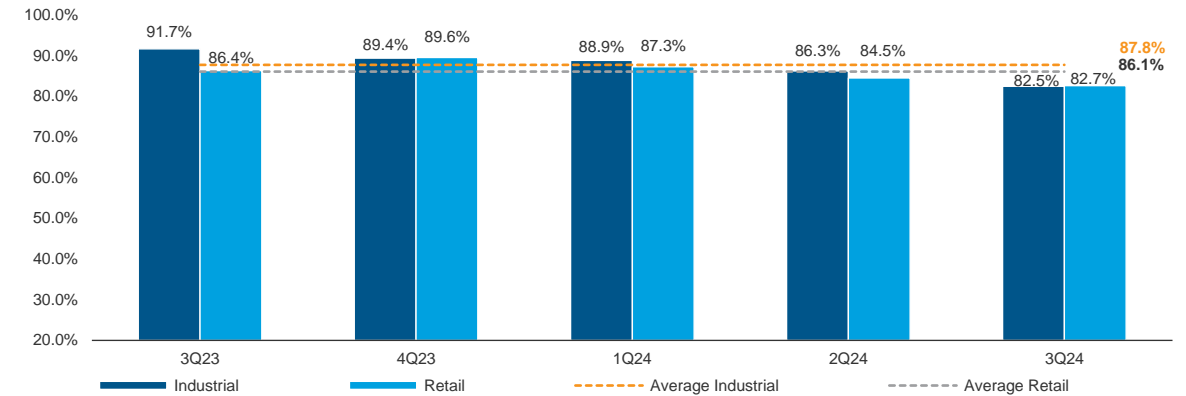

Occupancy

(End of quarter)

Retention rate¹

(LTM by GLA)

Rental rates

(Average monthly rent per leased sqm, end of qtr)

Weighted average lease term

(In years by annualized rent, end of qtr)

1. Retention rate is calculated on the basis of renewed leases as a percentage of total expiring leases. For the purpose of this calculation, leases are deemed to expire in the period corresponding to either when the renewal lease is signed or the customer moves out, as applicable.

Lease Rental Rate Summary

FIBRA
Macquarie
México

Car park traffic data from the following wholly-owned properties; Coacalco Power Center, Tecamac Power Center, City Shops Valle Dorado, City Shops Del Valle, Plazaragoza, and Plaza San Roque.

FIBRA Macquarie's retail presence

Retail portfolio highlights

- Defensive portfolio primarily located in the top retail market of Mexico City Metropolitan Area (MCMA)
- All leases are inflation protected and provide for recovery of common area maintenance and other property-related costs
- 100% of the leases are denominated in Mexican Pesos
- Customers include well-known names such as Walmart, H-E-B, Chedraui, Liverpool, The Home Depot, Alsea, Cinépolis, Cinemex and Smart Fit

Important presence in key metro areas

(% of annualized base rent²)

82.4% located in top three retail markets of Mexico¹

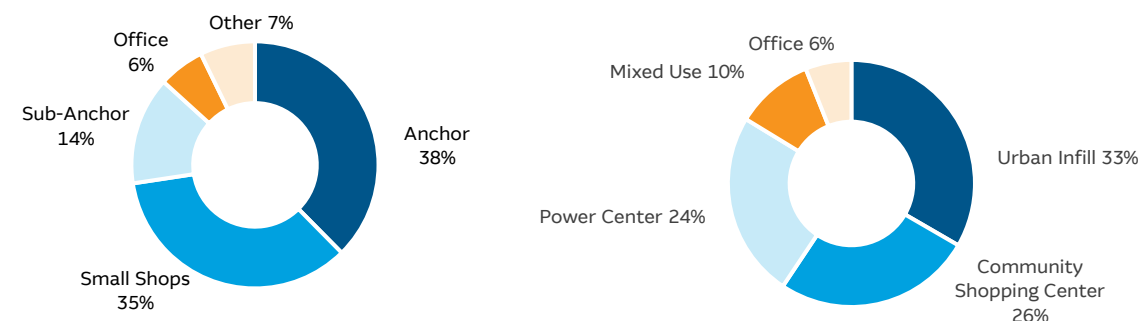

Lease expiration profile

(% of annualized base rent²)

Balanced mix of tenant and center types

(% of annualized base rent²)

Top 10 customers represent approximately **42.4%** of annualized base rent with a weighted average lease term remaining of **4.5 years**

1. Refers to Mexico City Metropolitan Area, Monterrey and Guadalajara; by annualized base rent. 2. Includes 100% of rents from properties held in a 50/50 joint venture.

Retail leasing activity³

(sqm in thousands)

1. Number of customers is calculated on a per property basis. 2. FX rate: 19.6290. 3. Based on lease signing date. 4. Refers to Mexico City, Monterrey and Guadalajara; excludes a non-operating MCMA property removed from GLA, currently undergoing a repositioning.

Note: information presented includes 100% of rental rates and GLA relating to properties held in a 50/50 joint venture.

Retail segment overview

Wholly-owned portfolio

- Portfolio consists of 8 properties:
 - 2 power centers
 - 3 urban infills
 - 1 community shopping center
 - 1 mixed-use property
 - 1 non-operating MCMA property not included in GLA, subject to repositioning
- Main anchors:
 - Walmart
 - Sam's Club
 - The Home Depot

Joint venture portfolio

- Portfolio consists of 9 properties:
 - 6 community shopping centers
 - 2 urban infills
 - 1 mixed-use property
- Main anchors:
 - Walmart
 - Cinépolis
 - Chedraui

AMEFIBRA Funds From Operations	(111.3)	667.0	68.0	623.8	32.4	23.9	680.0	604.2	

1. FFO is equal to EBITDA plus interest income less interest less income tax expense and normalized financing costs. 2. AFFO is derived by adjusting FFO for normalized capital expenditure (including painting expense), tenant improvements, leasing commissions, internal leasing and engineering costs and straight-line rent adjustment. 3. EBITDAre includes NOI less FIBRA-level management fees, corporate expenses, professional & legal expenses and business development (transaction related) expenses. 4. Excludes amortization of upfront borrowing costs. 5. All items below FFO except straight lining of rents are calculated based on a cash basis three-year rolling average. 6. Excludes expansions, development and remodeling costs.

Note A: A proportionate share of revenue and expenses relating to respective joint ventures in the Retail portfolio (FIBRAMQ 50.0% interest) and the Industrial portfolio (FIBRAMQ 81.8% interest) has been included in the above.

Note B: All figures are rounded to the nearest decimal point. Any arithmetic inconsistencies are due to rounding.

1. Leasing commissions amortization includes internal leasing services. 2. On September 14, 2020, FIBRAMQ acquired an initial 50.0% interest in a premium land parcel in the Mexico City Metropolitan Area through a joint venture trust, with the remaining 50.0% contributed by the land-owner. This reflects FIBRAMQ's proportionate share (81.8%) of revenue and expenses relating to the new joint venture trust.

Note A: All figures are rounded to the nearest decimal point. Any arithmetic inconsistencies are due to rounding.

Note B: A proportionate share of revenue and expenses relating to respective joint ventures in the Retail portfolio (FIBRAMQ 50.0% interest) and the Industrial portfolio (FIBRAMQ 81.8% interest) has been included in the above.

1. For further details of the calculation methodology see the definition section in the Appendix.

Note A: Peso amounts have been translated into US\$ at an average rate of 18.9151, which is the average FX for the quarter. Interest expense for unsecured debt is allocated between unencumbered Industrial and Retail assets based on the proportion of 3Q24 asset valuation of the respective unencumbered assets in the unsecured pool.

Note B: A proportionate share of revenue and expenses relating to respective joint ventures in the Retail portfolio (FIBRAMQ 50.0% interest) and the Industrial portfolio (FIBRAMQ 81.8% interest) has been included in the above.

Debt Profile

Debt overview

Overview¹

- CNBV Regulatory LTV of 30.7% and Regulatory Debt Service Coverage Ratio of 6.1x
- Real Estate net LTV of 33.0% and weighted average cost of debt of 5.6% per annum
- Liquidity of US\$437m available via undrawn committed, uncommitted revolver and surplus cash
- 72.3% of property assets are unencumbered²
- Average debt tenor remaining of 4.0 years

Loan expiry profile (US\$m)³

Key debt ratios³

By currency

By interest rate type

By security type (secured debt / unsecured debt)

1. As of September 30, 2024. 2. Percentage of investment properties value. 3. Proportionately combined result, including interest rate swap on variable rate term loans, as applicable, FX: Ps. 19.6290 per US\$. 4. Debt/EBITDA calculated using LTM EBITDA (3Q24) using an average FX rate of 17.6779 along with EoP debt balances converted to USD at an FX rate of 19.6290 5. 3Q24 LTM NOI / 3Q24 LTM interest expense. 6. Gross debt / total RE assets per latest independent valuation adjusted for FX and land at cost - on a proportionally combined basis, excludes surplus cash reserves. Net real estate LTV ratio calculated as (debt - cash - sales proceeds receivable + escrow deposits) / (total properties at market value + land reserves) proportionally combined.

Debt Disclosure

Outstanding loans includes scheduled drawdowns, prepayments and interest rate swaps as of September 30, 2024

AFFO Calculation Methodology

AFFO calculation methodology

Definitions

NOI Item	Definition
Repairs and maintenance expense (R&M)	Scheduled or unscheduled work to repair minor damage or normal wear and tear, as well as make-ready expenses. Typically, low value relative to maintenance capex.
FFO Items	
Transaction related expenses	Relates to business development expenses incurred during the quarter, which are expensed to P&L in accordance with IFRS.
Normalized financing costs	Incurred in connection with raising, refinancing or extinguishing loan facilities. Calculated based upon actual cash expenses in respect of each loan facility, amortized daily over the original tenor of the relevant debt facility.
AFFO items	
Normalized maintenance capex	Expenditure related to sustaining and maintaining existing property. Typically scheduled on a recurring basis based on warranty and useful life needs. Higher value than R&M. Often recoverable through the lease at cost.
Normalized extraordinary capex	Rare, unscheduled major capital works to repair damage or to replace items arising from unforeseen events such as natural disasters, accidents and vandalism. Typically eligible for insurance claims, which are netted against the costs.
Normalized tenant improvements (TIs)	Have similar characteristics to maintenance capex, except that the expenditure is typically one-off and is recovered through the lease generating a return.
Above-Standard Tenant Improvements (ASTIs)	Specialized, non-standard tenant improvements that would usually not be valued by another tenant or replaced/maintained after current lease. Cost is generally recovered through lease generating a return.
Third-party leasing commissions	Third-party broker costs paid on new and renewal leases.
Property management platform leasing-related expenses	Costs incurred by FIBRAMQ's internal property management platform related to leasing existing GLA. Recognized on an accrual basis effective 1 January 2024.
Property management platform engineering-related expenses	Costs incurred by FIBRAMQ's internal property management platform related to sustaining and maintaining existing GLA. Based on expenses allocable to maintenance capex and TIs. Recognized on an accrual basis effective 1 January 2024
Excluded from AFFO	
Expansions	Investment related to the addition of new GLA for an existing property. Includes relevant internal and third-party costs.
Development	Investment related to the addition of land and related construction of new GLA. Includes relevant internal and third-party costs.
Remodeling costs	Significant appearance and/or structural changes made with the aim of increasing property usefulness and appeal. Includes relevant internal and third-party costs. Includes any material conversion of property use.

Key market presence

Industrial assets in strategic manufacturing markets and retail assets in high density urban areas.

1. Mexico City Metropolitan Area (MCMA). 2. Includes two industrial buildings held in a joint venture in which FIBRAMQ has 81.8% interest. 3. Includes nine retail joint venture properties at 100%. Note: All figures are rounded to the nearest decimal point. Any arithmetic inconsistencies are due to rounding.

1. FX rate: 19.6290

Definitions

- **Adjusted funds from operations (AFFO)**¹ is equal to FFO less straight-line rent, normalized maintenance capex, normalized above-standard tenant improvements, normalized extraordinary capex, normalized tenant improvement, normalized third-party leasing commissions and normalized leasing and engineering-related costs incurred by the internal property management platform, all based upon the rolling three year average of actual cash expenditure.
- **AMEFIBRA defined Funds from operations (FFO)** is equal to EBITDA plus interest income less interest expense, income tax and amortization of debt costs (in accordance with IFRS). Alternatively, it would be equal to FIBRA Macquarie defined FFO less normalized debt costs plus amortization of debt costs (in accordance with IFRS).
- **Development Portfolio** includes properties that are under development and properties that are developed but have not met Stabilization.
- **Earnings before interest, tax, depreciation and amortization (EBITDA)** - Prospectively from 4Q20 EBITDA includes NOI less FIBRA-level management fees, corporate expenses, administrative expenses, transaction related expenses, professional and legal expenses, therefore, EBITDA is equal to EBITDAre. For prior periods EBITDA excluded transaction related expenses.
- **Earnings Before Interest, Taxes, Depreciation and Amortization for Real Estate (EBITDAre)** - EBITDAre is a non-GAAP financial measure. FIBRAMQ computes EBITDAre in accordance with standards established by the National Association of Real Estate Investment Trusts, or NAREIT, which may not be comparable to EBITDAre reported by other FIBRAs that may not compute EBITDAre in accordance with the NAREIT definition, or that interpret the NAREIT definition differently than FIBRAMQ does. EBITDAre is defined as EBITDA (see definition above) less transaction related expenses.
- **Funds from operations (FFO)** is equal to EBITDA plus interest income less interest expense, income tax and normalized financing costs.
- **Gross leasable area (GLA)** is the total area of a building which is available for lease to external parties.
- **Net operating income (NOI)** includes lease-related income and other variable income, less property operating expenses (including property administration expenses).
- **Net tangible asset value** is calculated by subtracting goodwill, derivative financial instruments, straight line rent asset, unamortized debt costs, unamortized tenant improvements (including above-standard tenant improvements) and unamortized leasing commissions, from net assets as per IFRS.
- **Occupancy** is the total GLA which has been leased to a tenant under a binding agreement, as a percentage of total GLA. We do not include any GLA as leased which is not subject to binding arrangements. Occupancy percentage is calculated as the total area leased to customers divided by the total GLA.
- **Operating Portfolio** represents properties that have reached Stabilization.
- **Real estate gross LTV** is stated on a proportionately combined basis and is calculated as (gross debt) / (total RE assets per latest independent valuation adjusted for FX + land at cost).
- **Real estate net LTV** is stated on a proportionately combined basis and is calculated as (gross debt - unrestricted cash - asset sales receivable + tenant security deposits) / (total RE assets per latest independent valuation adjusted for FX + land at cost).

1. AFFO may be calculated in a different manner by other market participants thereby limiting its usefulness as a comparative measure. The use of AFFO in the analysis of the financial performance of FIBRA Macquarie should be in addition to and not in lieu of other financial measures as required under IFRS.

Other important information

- **Redevelopments** (generally projects which require capital expenditures exceeding 25% of the gross cost basis) are placed in the operating portfolio upon the earlier of reaching 90% occupancy or twelve months from the completion of renovation construction.
- **Regulatory LTV** is calculated as defined by the CNBV (Comisión Nacional Bancaria y de Valores) (total IFRS consolidated debt + interest payable) / total IFRS consolidated assets.
- **Regulatory Debt Service Coverage Ratio (DSCR)** is calculated as per the methodology defined by the CNBV (Comisión Nacional Bancaria y de Valores) which reflects the inclusion of four quarters of forecast information.
- **Reporting Standards:** our financial statements are prepared in accordance with International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board.
- **Retention** is calculated on the basis of renewed leases as a percentage of total expiring leases. For the purpose of this calculation, leases are deemed to expire in the period corresponding to when either the renewal lease is signed or the customer moves out, as applicable.
- **Rounding:** where appropriate, figures in this presentation have been rounded to the nearest decimal point. Arithmetic inconsistencies are due to this rounding.
- **Same store metrics** are calculated based on those properties which have been owned for a minimum period of 15 months. All properties included in same store for 3Q23 and 3Q24 have been owned and operated since, and remain so, from July 1, 2023 until September 30, 2024 Expansions of these properties are included.
- **Stabilization** is defined as the earlier of when a property that was developed has been completed for one year or is 90% occupied. Upon Stabilization, a property is moved into our Operating Portfolio.
- **Straight-line rent** is a requirement under IFRS to recognize a non-cash adjustment for the difference between the monthly rent invoiced and the average monthly rent amount (i.e. total income of all payments over the lease, including fixed escalations and rent free periods, divided by the total lease term).
- **Valuations:** our investment properties are included in the IFRS financial statements at fair value, supported by an external valuation as at September 30, 2024. The key assumptions are as follows:
 - The range of reversionary capitalization rates applied to the portfolio were between 6.75% and 10.25% for industrial properties and 9.25% and 12.00% for retail properties.
 - The discount rates applied a range of between 8.25% and 11.75% for industrial properties and 11.75% and 14.50% for retail properties.
