Hypothetical NAV Value of Shares Pre-Split 400 10 4,000 Post-Split 100 40 4,000 The following table shows the effect of a hypothetical 1.3 reverse split. Period Number of Shares Owned Hypothetical NAV Value of Shares Pre-Split 300 10 3,000 Post-Split 100 30 3,000 Fractional Shares As a result of the reverse stock splits, a shareholder of a Fund's shares could potentially hold fractional shares. In this case, the Fund will redeem the cash value (at NAV) of any fractional shares resulting from the reverse split. Receipt of cash in lieu of fractional shares may result in a taxable event to shareholders, and each shareholder should consult with the shareholder's own tax advisers with respect to the appropriate treatment of the receipt of such cash payment. Brokerage Charges Some brokerage charges may apply because of the reverse split. These charges are made directly by the broker and are not charges from Global X.

Form 497 August 1, 2025

The Board of Trustees of the Trust has approved a reverse stock split of the issued and outstanding shares of each Fund listed in Schedule A hereto. The Reverse Stock Split for each Fund will be completed after the close of business on August 29, 2025.

As a result of the Reverse Stock Split, for each share of the corresponding Fund that a shareholder holds as of the close of business on August 29, 2025, the shareholder will receive a proportional number of whole shares of the Fund with the same aggregate dollar value, plus the cash value (at net asset value) of any fractional shares resulting from the Reverse Stock Split. Thus, the total dollar value of a shareholder's investment in shares of the Fund, when added to any cash received in lieu of fractional shares, will not change due to the Reverse Stock Split, and each shareholder will continue to own approximately the same percentage (by value) of shares of the Fund immediately following the Reverse Stock Split (adjusted for any fractional shares paid in cash) as the shareholder owned immediately prior to the Reverse Stock Split. In addition, the Reverse Stock Split will not result in a material change in a shareholder's proportional Fund ownership or voting rights, as the shares received as part of the Reverse Stock Split will provide a shareholder with approximately the same proportional Fund ownership and voting rights as the shares of the Fund owned prior to the Reverse Stock Split, adjusted by any fractional shares paid in cash. Receipt of cash in lieu of fractional shares may result in a taxable event to shareholders, and each shareholder should consult with the shareholder's own tax advisers with respect to the appropriate treatment of the receipt of such cash payment.
